CALIFORNIA FRUITS.

They Form a Perennial Feature of Eastern Markets.

New York, Agril 28.—[By the Associated Press.] Speaking of the fruit trade, the Journal editorially says:

It is a noticeable fact that California green fruit has been kept longer in the New York market this year than ever before. The last of the late pears are being closed out, while the first new fruit, cherries, will be in the market in two weeks. This makes California green fruit obtainable in eastern markets the year round. This is partly the result of improved cold-storage facilities. Table clives have gone up 70 per cent. In Spain, the country from which most of the clives are brought to the United States. The cause is a short crop. Last year about two hundred thousand gallons of Spanish olives were brought to this country. This year, scarcely two-thirds as many will be imported. California prunes are still away out of sight. NEW YORK, April 28.—Mrs. Delia Parnell, mother of the Irish leader, Parnell, mother of the Irish leader, writes to a morning paper contradicting the story to the effect that she is not destitute and reiterating her former statement. She says: "Pen and pencil fail to portray the extreme cases, and none have told my intense sufferings. Cold, too, was digging into me for weeks. I would not now be alive but for the benevolent people who provided for me, for I was fast, at my advanced age, dying of cold and starvation."

A Breach of Faith Los Angeles, April 28 .- [To the Editor of THE TIMES.] From a returned veteran G.A.R. we learn that much ill feeling was engendered at the San José encampment last week. Representatives from Southern California have for 22 years been paying their expenses to the yearly meetings of the order in different places in the northern part of the State, and only one time out of the years of its existence in State have the northern posts come south of the Tehachepi. Moreover, the ladies of the W.R.C. have long desired to have one of their number elected president of that order. Two years ago they united upon Mrs. Alice Fitch of this city, recognition, but as usual she was beaten in the election. This caused much dissatisfaction, but promises were profuse that this year Southern California should have the

Southern California should have the Presidency. Trusting in these promises, the entire corps south of the loop united upon Mrs. Col. Palmer and Russell Courts-martial. A gentleman who returned from Sar Francisco yesterday gave out that he earned the result of the recent Russell-Palmer court-martial in this city s few weeks ago. The verdicts were sealed and sent to Gen. Dimond and sealed and sent to Gen. Dimond and have not yet been made public, although this gentleman claims to have heard enough while up north to get a general idea of the verdicts. There were two charges against Col. Palmer, one for disobeying a superior officer while in camp at San Diego, and the other for testifying falsely against Col. Russell before the court of inquiry. On the first charge he was found guilty with a light penalty, and the second charge was dismissed. The found guilty with a light penalty, and the second charge was dismissed. The result of the Russell court-martial is more serious. There are about 24 charges against him, and he was found guilty on almost every one. The pen-alty will be dismissal from the service. The officers were seen but they refused to talk about the verdicts.

Its text is as follows:

THE DECISION.

This is a proceeding to obtain an injunction restraining the defendant, Johnson, as freasurer of the city of Los Angeles, from lepositing the public moneys of the said ity, or any portion thereof, with the City Benk.

iepositing the public moneys of the said alty, or any portion thereof, with the City sank.

The complaint alleges that under the rovisions of section 44 of the charter of his city, the Cierk of the city of Los Angess, on the first Tuesday of January, advertised that sealed proposals would be resired from any bank of deposit in the city of Los Angeles, on the first Tuesday of January, and the said city. THE COMPLAINT then alleges that all the provisions of the said city charter providing for the leaning of the public moneys of the city to any bank of deposit in the City of Los Angeles, which should make the highest bid for the same, are in violation of the Constitution of the Sinte, and the general laws of the State and are utterly vold, and give the Treasurer no authority to make such deposits, and alleges that the plaintiff is one of the furciles on the bond of the City Treasurer, and the provided the City Treasurer, and the provided the City Treasurer, and the contract of the c a me order of the Council will not re-e the plaintiff as such surety from his lia-ty as surety. The answer further proceeds to state that the defendant, as Cliy Treasurer, during all the time he has held said office, has deposited in various banks of the city the public moneys, giving the names of the banks and the several amounts now on deposit in each. That said moneys are piaced with the ordinary deposits of said banks, and are held and used by said banks, and are held and used by said banks, and are held and used by said banks, and are held and to the same extent as ordinary deposits by private parties, for the private gain and profit of such banks, and in violation of law; and alleged that the plaintiff is a stockholder in one of said banks, and that this action is not brought

and in violation of law; and alleged that the plaintiff is a stockholder in one of said banks, and that this action is not brought in good faith.

In the briefs of counsel for the respective parties much space is occupied in discussing the interest and motives of the plaintiff in bringing the action, which it is not necessary to consider in disposing of the matter. The real question to be determined by the Court is, whether the provisions of the charter, under which the deposit is sought to be made, is in conflict with the Constitution, and therefore void.

It is conceded by counsel on the part of the plaintiff that the provisions of section of the City. Council, Clerk and Mayor in what they have done in the premuses; therefore, if that section is valid, the plaintiff has no standing in court.

THE CHARTER OF THIS CITY was framed by fresholders, in pursuance of

THE CHABTER OF THIS CITY
was framed by freeholders, in pursuance of
section 8, article 11 of the State Constitution, as amended in 1887. As that section
first stood, a charter framed by freeholders
could only be made in a city containing
more than one hundred thousand inhabtiants. By the amendment of 1867, a simliar provision was added as to cities containing a population of 10,000, and not
more than 100,000.

liar provision was added as to cities containing a population of 10,000, and not more than 100,000.

In Brooks vs. Fischer (79 Cal., 178), it was held by our Supreme Court that the charter of this city was framed and approved in accordance with the provisions of the Constitution. The section of the Constitution in question provides that when such charter is submitted to the Legislature for its approval, and has been approved as therein provided, it "shail become the organic law" of said city, "and shail supersede any existing charter, and all amendments thereof, and all special laws inconsistent with said charter." It is, therefore, a lote, and of as high dignity as though it had been passed by the ordinary law-making power (in a case where there is no constitution the Legislature). Under the former Constitution the Legislature, that is, the ordinary law-making power, passed epecial laws incorporating cities and towns, and prescribed the duties of the various officers of the same, there being no limitation, as in the present Constitution, in that respect. The charter of this city, passed by the Legislature under the former Constitution, in 1878, contained a provision similar to the one embodied in the present charter in reference to the deposit of the

PUBLIC FUNDS IX A BANK.

one embodied in the present charter in reference to the deposit of the PUBLIC PUNDS IN A-BANK.

It is intimated on the part of counsel for the plaintiff that no action was ever taken under that no decion was ever taken under that old charter for the purpose of depositing the public funds in a bank, for the reason that there was some question about its validity. It is difficult to see wherein such a povision, under the former Constitution, should be invalid, for the reason, as stated, that there was no restriction upon the legislative power in the reference to the innornoration of cities and towns, and the Legislature therefore possessed full power in the premises. It has always been held, where there is no such reastriction, that municipal corporations were entirely subject to legislative counted in the use and disposition of municipal property and funds. In other words, the power of the Legislature in the premises is only limited by the Constitution of the United States and the Constitution of the United States; and in the former State Constitution there was no limitation in the United States; and in the former State Constitution there was no limitation in the constitution of the United States; and in the former State Constitution there was no limitation in the constitution of the United States; and in the former State Constitution there was no limitation in the constitution of the United States; and in the former State Constitution there was no limitation in the constitution of the United States; and in the former State Constitution the constitution of the Constitution of the Constitution of the United States; and in the former State Constitution the constitution of the Const

over municipal corporations, as already

ever municipal corporations, as already stated.

The people of the State, however, in adopting the present Constitution, saw fit to limit the power of the Legislature in reference to municipal corporations, and accordingly declared that "corporations for municipal purposes shall not be created by special laws, but the Legislature, by general laws, shall provide for the incorporation, organization and classification in proportion to population of cities and towns." (Section 6, article 11.) These general acts of incorporation, however, cannot be imposed upon any city or town, but cities or towns may become incorporated under such general laws, the same as corporations for private purposes may be organized by complying with the general law on the subject of PRIVATE CORPORATIONS.

ing with the general law on the subject of PRIVATE CORPORATIONS.

The Constitution also provides another mode of incorporating pities and towns having a population of over 10,000 inhabitants. That mode is pointed out in section 8, article 11, and consists in the framing of a charter by fresholders, as in the case under consideration. This mode is outside of the general law-making power. It is not originated by a bill introduced into one of the two houses of the Legislature and passed as in the legislature article provided, and submitted to the Governor for his approval. But it is, nevertheless, a law, and ranks the same as general sois of incorporation adopted in the usual manner of passing laws. The only restriction imposed upon such acts of lucorporation, whether originating from the freeholders or passed by the Legislature in the shape of general laws, is as follows: "And cities and towns heretofore or hereafter organized, and all charters thereof, framed or adopted by authority of this Constitution, shall be subject to, and controlled by, general laws." (Section 6, article 11.) And in addition thereto of course they must be in conformity with the provisions of the Constitution.

Plaintiff's counsel contend that the provisions of the Constitution, which reads as follows:

"All moneys, assessments and taxes be-

deposits in conflict with section lo, article 11 of the Constitution, which reads as follows:

"All moneys, assessments and taxes belonging to or collected for the use of any county, city, town, or other public or municipal corporation, coming into the hands of any officer thereof, shall immediately be deposited with the Treasurer, or other legal depository, to the credit of such city, town or other corporation, respectively, for the benefit of the funds to which they respectively belong." The provision of the charter reads: "That the bank offering the highest rate of interest shall be appointed the depository of public moneys." And the contract and bond require the faithful keeping and proper disbursement of all such moneys, and the payment of all warrants drawn upon the City Treasurer, so long as there is SUFFICIENT MONEY IN THE FUND

cient money to the credit of said city on deposit in said bank, to pay the same. Plantiff's counsel contend that the "other legal depository," referred to in the Constitution, means some other officer than the Treasurer. If it meant some other officer than the the term, "or other officer," as the term, "or other officer," as the term, "or other legal depository." Beside, in the construction of statutes or constitutions, it must be assumed that the members of the construction of statutes or constitutions, it must be assumed that the members of the Legislature, or of the convention that framed the Constitution, had in view the condition of things at the time of the passage of the law or of the adoption of the Constitution, and used terms applicable to such conditions.

tution, and used terms applicable to such conditions.

It appears in this case, that prior to the adoption of the present Constitution there was a provision in the former charter of this city, and, perhaps, in charters of other cities, for depositing the public funds under certain conditions in banks of deposit. It is but fair, therefore, to presume that this term, "or other legal depository," referred to such depository.

It is also strennously contended on the part of counsel for the plaintiff that no power can be conferred upon a municipal body to key or collect tarre for the purpose of learning the same us any one; that target can easy be levied and callected for public asset that reaching this, it does but appear in this continue. The transition that the position of the continue of

positing the same, but only in the ordinary course, and for the purpose of meeting demands upon the puriot treasury.

The question is, Where the funds raised by assessment and taration for pucilic purposes shall be kept or deposited awaiting drafts on the same for the payment of salaries or other public purposes?

It appears by admissions in the argument in this case that, for years, it has been the practice of the City Treasurer to deposit the public funds in one or more of the banks of deposit of the city, for safe keeping; and it was probably thought as well to receive some compensation, if could be had, for the privilege of receiving such deposits, as to have the funds used without any consideration, provided the city could be await secured. And this, no doubt, was the reason of the provisions in the old charter, as well as the present one.

It is not the object of a municipal corporation to buy lead for the mere purpose of selling or leasing the same—that is to go into the real-estate business—still, when a city or town owns or has become possessed of lands or real estate which it has no immediate use for, it is entirely proper

a city or town owns or has become possessed of lands or real estate which it has
no immediate use for, it is entirely proper
to sell the same, or to lease it until such
time as it may be sold to advantage or required for use. And accordingly provision
will be found in most city charters, whether
framed by general law or special enactment, authorizing the lease, as well as the
sale of such municipal property. Such a
provision will be found in the present
charter, and was in the old charter and is
also in the general law in reference to

MUNICIPAL CORPORATIONS.

If it be consistent with the object of municipal government for a city to derive

nicipal government for a city to derive profit from the use of its lands, instead of

allowing them to be occupied gratuitously, it is difficuit to see why it would be less so for the city to receive some benefit, if possible, for the privilege of receiving on deposit (or using even) its funds, until such time as they be required in the ordinary course of its business.

However, with the policy of the law the Court has nothing to do, further than where it may throw light upon the legislation and aid in the construction of a doubtful provision.

Plaintiff's counsel contend also that the provision of the charter in question is in conflict with section 424 of the Penal Code, one of the general laws of this State. That section provides that every officer of any county, city, town or district and every other person charged with the receipt, safe-keeping, transfer or disbursement of public moneys, who, without the authority of law, appropriates the same to his own use, or loans or makes profit out of the same, for any purpose not authorized by law, or unlawfully deposits the same with any bank, or changes or converts any portion without authority of law, or wilfully refuses to pay over on ademand any public moneys upon presentation of a draft from competent authority, or wilfully omits to transfer the same, when required by law, or wilfully refuses to pay over to any officer authorized by law, but receive the same, any moneys received by him under any duty imposed by law to receive the same, any moneys received by him under any duty imposed by law, is guilty of a felony.

It will be seen from this provision that it prohibits only such acts as are done without authority of law; so that if the provision of the charter in question be valid, then the deposit of the public funds as therein provided will be by authority of its provision are to be taken in onflict with some provisions are to be taken to open the first provision of the Constitution. In constitutional incompatibility with the section of the charter in question whether a law be void or repugnancy to the Constitution is at all times a question o

its acts to be considered as void. The opposition between the Constitution and the law should be such that the Judge feels a clear and strong conviction of their mecompatibility with each other. "As sireary stated, this charter, although not first emanating from the Legislature, was framed and passed in accordance with the Constitution, and has all of the sanctity or presumptions in its favor of any law passed by the ordinary law-making power in the usual way. In other words, it is another mode of enacting a law under the Constitution.

Governed by the rules referred to, and not being able to discover any clear incompatibility between the provisions of the charter in question and the constitutional and general laws passed thereunder, I must hold that its provisions are valid, and that it is the duty of the defendant, the City Treasurer, to comply with the ordinance and action of the Council and city authorities thereunder, and that the plaintiff is not entitled to an injunction restraining the defendant, the City Treasurer, from so doing.

GENERAL COURT NEWS.

The Chinese Cases from San Diego -Heryford Dismissed-Notes The Chinese cases from San Diego will be tried in this city. The design of the Government to punish the Chinamen entering the United States illegally, as well as those who secure their admission, has been formed by United States District Attorney Cole, United States District Attorney Cole, and he has taken the preliminary steps necessary in the case. It was not known until yesterday that the Government would stand in, so to speak, with the proposition. But information was received in the afternoon that Mr. Cole should go ahead, and the Chinamen, now in jail, will not be taken back to San Diego. They were originally detained under a complaint sworn out before the Commiswere originally detained under a complaint sworn out before the Commissioner in San Diego, but, before the return was made, they were actually arrested by Deputy Marshal Marsh, under the complaint issued by Commissioner Van Dyke, and brought up to Los Angeles. The whole point in the case is an endeavor on the part of the Government to punish the Chinamen themselves, as well as the men who assisted them to procure an illegal entrance into the country. The examination of the prisoners will take place during the week.

There is today a decided flurry among our local bug sharps, which can only be compared to the sensation created among the ranks of the icerya purchasi when the vedolia cardinalis of blessed memory, turned itself loose upon its chosen prey.

The trouble is thuswise: The County

Horticultural Commission has, for some time past, been very persistent in dvocating the treatment of infected orange trees by certain sprays, washes and other patent compounds, each and several of which is warranted to knock the festive s.b. higher than Gilderoy's kite. On the other hand, many horticulturists maintain, with much show of reason, that these washes have been tried and found wanting: nay, more, that they had been of posi

A writer in the Boston Journal hinks that perhaps the most striking conception of statecraft, embodied in the fameus phrase which he used in one of his last interviews with Jules Favre and M. Thiers: "Country should not be dominated, but served." The profound wisdom and patriotism of this remark made a deep impression on Jules Favre at the time, worn down as he was with anxiety and little disposed as he nat with equity, as well as law. It urally was to pay compliments to the exacting conquerors. They had been discussing the probability carrying France along with them into ne policy, and Bismarck expressed a mild surprise at this, "The nation ought," he remarked, "to be served by her diplomats, not driven along by them." "But," remarked one of the impelled in the right direction, to be driven, and the privilege of genius is to guide and impel them." Bismarck dissented from this view, and said that "duty" was a far greater watchword than "privilege of genius." Consistency in politics, he said, frequently made a diplomat full of error, bstinacy and willfulness; the thoroughly conscientious diplomat would he thought pay due respect to the e, in the aggregate, from Alaska varying manifestations of the national will, always bearing in mind his responsibility to God, which was, he

that the condition is this:

First—The general range of prices is now as low as in the decade from 1840 to 1850, and is constantly tending downward.

Second—The national bank circulation is being surrendered and canceled, as the bonds are paid off, resulting in a constant reduction of our paper currency.

Third—The annual production of geld is nearly, if not entirely, all consumed in the arts and dentistry, and it as certain as anything can be, that in the next thirty years the demand for gold for these purposes, alone will encroach materially on the money stocks of gold now in the hands of man.

Fourth—In thirty years the population of the world will have largely increased and will have doubled in the United States.

Fourth—In thirty years the population of the world will have largely increased and will have doubled in the United States.

The question then is, is there to be no more money for the 130,000,000 people who, in not more than three decades, will be in the United States, than for the 65,000,000 now here? It so, what is it to be, and wh-nce is it to come? The supply of both metals is no more than sufficient to meet the demands of increasing population and expanding industries and stop further. expanding industries and stop further fall of prices-no more than enough to maintain the present level of prices. AMUSEMENTS.

GRAND OPERA-HOUSE.—The opening performance of the Bostonians last night was witnessed by a crowded house, as pre-dicted, and the new opera of Don Quixote was rendered in most effective style. The welcome afforded to the chief singers was emphatic, and must have been very gratify ng to them. Their principal numbers wer encored, one might say, without mercy when an audience is genuinely pleas

show of reason, that these washes have been tried and found wanting; nay, more, that they had been of positive detriment, killing many trees instead of the bugs. Moreover, several orange-growers in the Vernon district assert that a new enemy is at work upon the red scale, and will get away with the peats, if given a fair show.

It is an assured fact that all patent compounds tried so far have proved or little or no value in eradicating the scale, while many of them have ruled the trees to which they were applied. Hence the reluctance of the fruttgrowers to continue to pay out money for such "bad medicine" is quite explicable.

There is a simple remedy, which, if where the remover or such "bad medicine" is quite explicable.

There is a simple remedy, which, if where the remover or such "bad medicine" is quite explicable.

There is a simple remedy, which, if where the trees the pores of the lease and is certainly harmless, even if not effectious. Besides clearing off the bugs it opens the pores of the leaves and enables them to breathe. It has one drawback—it does not put money into the pockets of the patent bugs into the pockets of the patent bugs into the pockets of the patent bugs and the rivel of the result in trial.

The supervisors yesterday ordered the Horticultural Commissioners to go shead and spray the trees, regardless of protests. With what sprays? Who is to say what applications are beneficial, injurious or otherwise? Some sprays will kill the bugs; some kill both trees and bugs, while many kill neither one nor the bugs, we do not fall among the humbugs.

Four Hundred Dwellings in Dallas Partly Inundated. DALLAS (Tex.), April 28 .- [By the The sun rose Associased Press.] sautiful and clear this morning, but the outlook has the reverse in about four hundred homes in Dallas and suburbs, from which the inhabitants had been driven by the overflow in the Trinity River. The river at this rise was a few inches higher than that of 1866, which was the highest recorded within the memory of the oldest settlers. Large forces of men are now repairing washouts on the various roads. The water last night ran through the windows of the first floor of the Dallas elevator, and damaged a large amount of wheat as well as machinery. The St. Louis Pressed-brick

THE SILVER QUESTION IN A NUT-SHELL.

A pamphlet entitled, "The Monetary Situation," by A. J. Warner, contains the gist of the silver question in as condensed and readable a shape as anything that has come under our notice. The writer starts in with the statement that "it is a condition that confronts us, not a theory," and shows that the condition is this:

residing in the low lands are compelled to leave their homes and move to Bayou Banks. Crops, which were in magnificent condition, are lost. Twenty-five hundred people will suffer in this parish from floods. Bayou Chene people are asking for relief boats to save the lives of stock. Every inch of ground in that section is under water. SAN FRANCISCO, April 28 .- [By the Associated Press.] The principal defendants in the suit brought by Frank symmes and others against the Comstock Tunnel Company et al., in the United States Circuit Court for Ne ada, today filed their answer at Carson City. It is quite a voluminous ocument, and sets forth minutely the istory of the reorganization of the Sutro Tunnel Company through the efforts of Theodore Sutro of New York. In July 1887 Theodore Sutro made a avorable settlement of the mortgag claim of the McCalmonts, on the condition that the money be paid on, or before January 1, 1888. About one million dollars was required, and to raise the money Sutro proposed to issue income he stockholders on condition that the entire amount be raised by January 1, 1888. Only about four hundred thou-sand dollars was subscribed up to that time, and it appearing impossible to get all the stockholders to subscribe, Sutro succeeded in getting a syndicate of capitalists, headed by the Selig-mans, to guarantee half of the bonds. The plan was then changed, and the stockholders who had previously sub-scribed conditionally, came in under the new plan, which was to purchase the mortgage from the McCalmonts and foreclose in the interest of the subscribing stockholders and syn-dicate, unless all of the stock-holders subscribed. They were, it is claimed, given the fullest opportunity and urged by circulars and advertise-

property was transferred to the C stock Tunnel Company, which organized for the purpose.

The answer states that the widest publicity was given to the plan, and that this plan was the only method by which foreclosure in the sale interest of the McCaimonts could be prevented. It further states that the trustees of the Sutro Tunnel Company and the syndicate as: well and the syndicate as: as Theodore Sutro acted in utmost good faith in the matter. utmost good faith in the matter. The charges of an attempt to defraud any stockholders, or to take any unfair advantage, are specifically denied. It also states that the three plaintiffs are the only stockholders who have raised any objection to the course pursued, and that they have not shown themselves entitled to any relief whatever, and they, in fact, assented to the plans.

A DAY IN CONGRESS. THE LEVEE SYSTEM DISCUSSED IN THE SENATE.

Bill for the Admission of Arizona Introduced - Plumb on "Patriotism" and Hooker on the Word "Rebel."

Bu Telegraph to The Times. WASHINGTON (D. C.), April 28. By the Associated Press.] Senate .-

Mr. Welthall said as near as he knew
the people along the river had absolute
faith in the levee system, and were
generally opposed to the outlet. He
firmly believed if the outlet system
were adopted it would not be long before the Mississippi River would become useless for navigation.
After further discussion the business
of the morning hour was proceeded
with.

Mr. Blackburn introduced a bill for

the admission of Arizona. Referred.

The Land Forfeiture Bill was taken up, and, after some discussion, went over without action.

As for Congressional timber, a day in an Diego is sufficient to convince one ho looks into the matter that the roods are full of it. There are in fact

who looks into the matter that the woods are full of it. There are in fact so many San Diego Republicans who desire the county delegation to the Congressional convention that some difficulty is going to be experienced in securing unity of action in the support of any one candidate.

Just at the present writing Judga M. A. Luce's seems to be more numerously referred to than any other gentleman in this connection. Judge Luce has a strong following, who consider him the most available man to present to the Congressional convention as the candidate of this county. The Judge's friends claim that he has an extensive acquaintance throughout the district, that he is an able lawyer, a clean man of liberal ideas; in fact, they assert that he comblnes all the elements that would go to make an excellent representative and a strong candidate before the people. The rumor that Judge Luce's physician has informed him that the climatic surroundings of Washington would not admit of his living there, is denied. The fact is the Judge is in excellent health and is not at all afraid of the malaria of the Potomac.

Gen. Eli H. Murray formerly Governor of Utah, is also being pushed by his friends for the nomination. The General's brilliant record as a soldier during the war of the rebellion, his able administration of the affairs of Utah Territory, and the extensive acquaintance he has with national characters are the reasons advanced by his friends why it would be wise for San Diego and the Sixth District to have him in the next Congress.

By a very select few the name of Nestor A. Young has been referred to the control of the sixth District to have him in the next Congress.

By a very select few the name of Nestor A. Young has been referred to force the people of the convention, we are entitled to some consideration. It would be very folish indeed to accept anything less than our due.

By a very select few the name of Nestor A. Young has been referred to in connection with the Congressional nomination. This will be about as far as the matter will ever go. Mr. Young is not regarded as available by 99 per om. of his party. A recent event makes it doubtful if he will ever go man should be granged in Southern California, one of the kind who always has a plain, outspoken man of the kind who always has a plain have political bonors "thrust granged is authority for the recent declaration that his own ambition is for another term in the Legislature. Senator W. W. Bowers. Col. Douglas Gum and Hon. John R. Berry have all been talked about as candidates for Congress, but these gentlemen have greatfully declined to be considered in this connection. They are of the opinion that a San Diego man should be great the nomination, but very quietly and medeatly announce that they do not dealer the honor for reasons which considered may be nominated on the first than the nominated on the first allot without any trouble or any trading being done.

"But we would like to have the next Congressman down this way, and we are willing to trust to the sense of justice of this county regarding the

ourse, the clock-maker demanded the works, as in them hay the trouble. Boils and blotches, pimples and other cruptions on the exterior tell of a disordered condition of the blood within. If you have these indications, be wise in time, and take Dr. Pierce's Golden Medical Discovery. It puts the liver and kidneys in good working order, purifies the blood, cleaness the system from all impurities, from whatever cause arising, and tones up the functions generally.

"Golden Medical Discovery" checks the frightful inroads of Scrofula, and, if taken in time, arrests the march of Consumption of the Lungs (which is Lung-scrofula), purifies and enriches the blood, thereby curing all Skins and Scalp Diseases, Ulcers, Sores, Swellings, and kindred aliments. It is powerfully tonic as well as alterative, or blood-cleansing, in its effects, hence it strengthens the system and rystores vitality, thereby dispelling all those languid, "tired feelings" experienced by the debilitated. Especially has it manifested its potency in curing Tetter, Saltrheum, Eczema, Erysipelas, Bolls, Carbunoles, Sore Eyes, Goltre, or Thick Neck, and Enlarged Janut.

"Goldest Medical Discovery" is the only blood and lung remedy, sold by druggists, and guare aked by its manufacturers, to do all that it is claimed to accomplish, or money paid for it, will be promptly refunded.

A FINE ORGAN.

Is Shortly to Have One.

A recent announcement to the effect that the First Congregational Church of Pasadena is to have in the near fu-ture a magnificent pipe organ, will prove a very agreeable surprise and a ce of gratification to the large conration of the church. Sunday the ard of trustees of the Congregaaconcement, the result of a recent decision, and the promised instrument is at present building in Westfield, Mass., and is to be put in place as an addition to the already beautiful editice by the 1st of November next. It is to be as the a piece of workmanship and as good an instrument as anything of its kind on the coast. It will be blown by a water motor. The donor of this costly and magnificent gift requests that the name be withheld from the public. The board of trustees at its regular monthly meeting, last Friday evening, determined to beautify the church by frescoing, which will all be completed by the time that the grand organ is ready to be placed. nt, the result of a recent de-

Rifle Shooting.
Several days ago a number of the members of Company B, Seventh Regiment Infantry, went out to Scoville's place, near the Arroyo Seco, to rife's place, near the Arroyo seco, to practice rife shooting. Much interest mad been manifested of late by the soldier boys in rifle practice, and the score which follows makes quite a flatering showing. Each man had 10 shots at the recent target practice, there being a possible score of 50 points, distance 200 yards. The score follows:

Sergt Lancaster, 16: Sergt. Bassett, 28; Sergt. Buchanan, 37; Corporal Permar, 12; Corporal I a Spada, 10; Corporal Sutiff, 25; Private Craig, 18; Private Vail, 5; Private Herman, 82; Private Root, 36; Private Lenney, 29; Private Manahan, 16; Private Iraley, 33.

Washington Star.

"I was introduced to 'Old Hutch' in Chicago the other day," said a New England man in the Ebbitt lobby. "He is a typical Yankee of the extremest sort, and you remember he was originally from Vermont. He has a large frame, and in good flesh would turn 200."

"Stingy?"
"I guess; at least he has that reputation. You remember he was held up
last year by footpads, and, although
he is worth a few millions, they got

only 12 cents for their bold undertak-ing."
"They say he dresses shabbily?" Assessor is J. F. Steen, who was the chief deputy assessor in the Assessor's office in Oakland for eight years, and also head deputy in the Los Angeles county office for two years.

"They say he dresses shabbilly?"

"There is usually some hayseed under his collar, but I heard a good story about his getting a new cost. His son one day upbraided him on his carse clothing and urged him to get a new overcoat like his own, which, this sire was made to order for \$40. would pay the balance himself. The \$100 coat was soon on the old man's back, and the next day on the Board of Trade a broker inquired if he was not getting rather extravagant in his dress. 'That's a fine coat you have on; I would be willing to pay \$75 for one just like it.'"

"'You may have it,' quickly responded the king of the pit, thinking only of the \$35 profit, and, suiting the action to the word, peeled his covering as quick as a country sucker could shuck a nubbin. That day there was a \$25 net loss in the 'Hutch' family, but the old man never knew it."

month, will be celebrated at

J. M. HALE & CO.'S,

107 & 109 North Spring St., Los Angeles,

By placing on sale the different lines of goods tabulated below, and the prices named on these particular lines will be of interest to the closest cash buyers, and we shall expect all our regular customers and as many more as an pon to east their eye on this advartisement to avail themselves of this opportunity and visit us on Wednisday, April 80th. You will certainly be benefited by so doing and we shall only be too glad of the chan e to bring to your favorable notice the goods herein ment ones, as well as many other new and desirab e spring and summer novelties, and at such prices as will be sure to interest you.

421 Cents. 421 Cents.

FIRST TO MEET THE EYE ON ENTERING OUR STORE ON WEDNESDAY, APRIL Soth,

Will be 20 pieces Satin Stripe Colored Serges. These goods were imported by us to sell at 65 cents, but owing to their late arrival we are forced to give them to the public at a price that will insure their speedy sale, namely, 421 ceuts. They come in all the late colorings, such as Ruby. H. liotrope, Amethyst, Royal Purple, R. sada, as well as the staple shades, such as Navy. Wine, Seal, Drab, etc. These goods are full 38 inches w de, and at 42 cents brings it within the reach of all.

Side-band Colored Henriettas, at 75 Cents, WEDNESDAY, APRIL 30th.

This is a veritable landslide in regard to price, as the setual value of these goods is \$1 per yard, and at this price they would have been marked had they arrived on time, but being some two months overdue we rather place them on our counters at 750 and thereby insure a quick sale, although a small margin, than take chances of carrying them through the summer, and as side-band goods are very popular and the colorings the very lat st we have no hesitancy in recommending this particular line to the most fastidious.

A GOOD DAY FOR SILK MITTS.

On Wednesday, April 30th, our entire line of Ladies' High-colored Silk Mitts will be placed on our notion counter at just one-half of our former prices and in some instances even less. Illustration: Our \$1.25 and \$1 silk Mitts all at 50c; our 65 and 50c Silk Mitts at 25c; all 20 and 25c silk Mitts at 10c. This will be an opportunity of a lifetime and the season is now at hand for the use of these goods. Remember the day and date. Wednesday, April 30th.

72 Cents. Hand Made Linen Torchon Laces. 72 Cents.

The balance of our Linen Laces that were left over from last Wednesday will be closed out at 7½ cents. This is certainly one of the cheapest lines of lace ever offered for sale in any quantity.

50 Pairs at \$4. 50 Pairs at \$4.

A DAY AMONG THE BLANKETS.

All Wool Sheep's Gray Blankets, full ten-quarter wide, at \$4 per pair; reduced from \$5.50. The price and quality of this blanket should tempt every lady in Los Angel's from her home duties for one day if for no other purpose than to examine and see the best value in blankets ever placed upon the counters of any retail house in California. Quality and

SPECIAL NOTICE.

J. M. HALE & CO. are naming lower prices on their Silk-warp Black Hearlettas than any house on the Pacific Slope. And no wonder, when we tell you that these Hearlettas were imported by us direct for our eight living stores scattered over the coast, all at one time, making it the largest import order ever placed for these goods by any recall store in California; and the fact of their being the well-known Priestly make will insure their speedy sale at prices we have placed on them. In conclusion 1800 us add, any one intending making a purchase of Black Hearletta.
